His Bria

Author: Julia Santel

Disclaimer: I know. This is George's galaxy, I am toying with it. And getting no money!!

Author Note: This is 'a what if' story. I know lots of you think that Han should have been with Bria (which I sometimes think). This story is for you.

Han Solo had just gotten back from getting supplies for the Rebellion. Today is going to be a long and hard day, Han thought to himself.

Today was the 1st year anniversary of the death of his Bria He missed her badly. Even though she pointed a blaster at him. And made all his friends hate him. Even one of them was them were killed. Han had many relationships in the past with women, heck he should say females all together. But he never really loved any of them. Only Bria.

Han looked around the hanger and saw many people and aliens working hard. This is what she would give anything for. To restore peace. Maybe she is why he came back to help Luke blow up the Death Star. Maybe she is why he stayed and helps the Rebels. Maybe.

No one every knew about what had happen between him and Bria in the Rebellion. Well, at least the people who were alive. The Rebels, who had been under Bria's command known about the two, but died with her.

Han remembered when Boba Fett had told him that Bria was dead. When Han had joined the Rebellion after Yavin, he secretly searched all files on Bria just to make sure that Fett had not been lying to him. But he had not.

Han looked around the hanger once more. Then something, no one caught his eye. Well, at least her hair. It was red with golden highlights. She was tall and slender. Han just thought his mind had been playing tricks with him, since he had just been thinking about her. But it hadn't. It was she. His Bria.

Author Note: I will write more if I get some feed back! And any ideas are welcomed!
